EDUCATION

Northeastern University, Boston, MA

Sept. 2026 – May 2028

M.S. in Game Science and Design

Beihai University of Art and Design, China

Sept. 2022 – Jun. 2026

B.F.A. in Animation, Concentration in 3D Animation

PROFESSIONAL EXPERIENCE

3D Modeling Intern

Jun. 2025 – Sept. 2025

Shanghai Wuliu Culture Co., Ltd., Shanghai, China

- Created and textured 3D characters and props using Maya, ZBrush, and Substance Painter.
- Iterated on models based on feedback from art leads to improve visual quality, consistency, and asset requirements.
- Collaborated with animators to optimize topology and deformation for rigging and animation.

SELECTED PROJECTS

Ice Bomb Runner — Ludum Dare Game Jam 58

October 2025

Team Leader • 2D Artist • Level Designer

- Led a multidisciplinary team to develop a functional game prototype within 72 hours.
- Coordinated programmers and artists while managing development priorities and rapid iteration.
- Designed levels, character concepts, and environmental assets for efficient implementation.
- Maintained a consistent visual direction while adapting designs to technical and time constraints.

Coastline Guardian — TapTap Spotlight Game Jam

October 2025

Team Leader • 2D Artist • Level Designer

- Led a 4-person interdisciplinary team to develop and deliver a playable game within 21 days.
- Designed UI, characters, level layouts, and core gameplay systems.
- Coordinated team communication, task delegation, and version-control workflow.
- Created promotional artwork and release materials for the final submission.

Balloon Bird — TapTap Spotlight Game Jam

October 2024

2D Artist • Game Designer

- Collaborated remotely with designers and programmers to deliver a complete game within 21 days.
- Created character artwork, environmental assets using Photoshop.
- Contributed to gameplay ideation and iteration based on player feedback.

Confused Bear — University Animation Course Project

April 2025

3D Artist • Animator

- Developed storyboards and visual concepts for a four-week team animation project.
- Created character animation in Maya.
- Coordinated asset handoffs and contributed to the overall production pipeline.

Audio-Visual Language Course Project

October 2023

Project Manager • Director

- Directed a student team in developing a short film that received the highest final course grade.
- Contributed to screenwriting, storyboarding, cinematography, and editing.
- Organized production schedules and coordinated team collaboration throughout the project.

TECHNICAL SKILLS

Game Development: Unreal Engine, Unity, C++, Python

Digital Art: Photoshop, Maya, 3ds Max, ZBrush, Substance Painter & Designer, SpeedTree, Toolbag

Video & Audio: Premiere Pro, After Effects

Traditional Art: Sketching, speed drawing, gouache

Languages: Mandarin(Native), English

AWARDS

- **First Prize**, National English Competition for College Students (Ranked 1st in University)
- **Second Prize**, Guangxi Translation Competition for College Students
- **Third Prize**, “FLTRP·ETIC Cup” English Public Reading Contest
- **Award of Excellence**, Chinese Calligraphy Competition
